SUMMARY

A hardworking enthusiast looking for opportunities to exhibit my professional skills in the social benefits of society.

EDUCATION

FAST University

Bachelor's of Science in Computer Science

Lahore, Punjab

2021 – 2026

EXPERIENCE

SWE Intern

Senarios

June 2024 – August 2024

Lahore, Punjab

- Developed a fully responsive clone website using HTML, CSS, and JavaScript.
- Integrated advanced frontend features for a seamless and interactive user experience.
- Demonstrated expertise in responsive design for optimal performance across devices.

PROJECTS

Chatbot UI | *React JS*

Feb 2026 – Apr 2026

- Built a chatbot interface using functional components, implementing core hooks like useState for managing dynamic message flow and UI updates.
- Created reusable components and used props for clean, modular structure.
- Implemented state management and conditional rendering to handle user/bot messages with a controlled interaction flow.

Virtual Reality Glove | *IOT*

Jan 2025 – Jan 2026

- Developed VR gloves with finger tracking and haptic feedback for natural hand interactions.
- Created a plug and play solution compatible with SteamVR for immersive experiences.
- Enhanced realism in virtual reality applications through physical virtual interaction.

Social Network System | *C++*

June 2023 – August 2023

- Implemented a social networking system using inheritance, polymorphism, encapsulation.
- Developed features for users, posts, comments, and friend/page management using dynamic memory.
- Integrated file handling fstream for persistent data storage and retrieval.

1024 Console Based Game | *C++*

Dec 2022 – Mar 2023

- Built a console-based 1024 game in C++.
- Implemented game logic using nested loops and conditional statements.
- Developed arrow key based controls for interactive gameplay.
- Demonstrated strong problem solving skills and logical thinking through efficient implementation.

TECHNICAL SKILLS

Languages: C++, JavaScript, HTML/CSS

Frameworks/Libraries: React

Developer Tools: Git/Github, VS Code, Visual Studio
